FOREWORD

This bibliography features periodical articles on the subject of winter war. Technology has eased some of the difficulties in waging war during this season of the year, but the obstacle will obviously always remain.

Arrangement is in two parts. Part one lists periodicals consulted by an arbitrarily arranged acronym. Part two is the alphabetical listing of representative journal articles. Inclusion of an item, or omission, does not imply USAFAS indorsement or sanction of the compiler's point-of-view nor does it guarantee accuracy of content. Comment and criticism concerning this list is solicited.
